COLIN POWELL

“A PERSONAL VOICE COLIN POWELL

“Our choosing sides in conflicts around the world was almost always decided on the basis of East-West competition. The new Soviet leader, Mikhail Gorbachev, however, was turning the old Cold War formulas on their head. ... Ronald Reagan ... had the vision and flexibility, lacking in many knee-jerk Cold Warriors [participants in the Cold War between the U.S. and the USSR], to recognize that Gorbachev was a new man in a new age offering new opportunities for peace.”

—My American Journey

Though U.S. foreign policy in the early 1980s was marked by intense hostility toward the Soviet Union, drastic economic problems in the Soviet Union destroyed its ability to continue the Cold War standoff.

The Cold War Ends

In March of 1985, Mikhail Gorbachev became the general secretary of the Communist Party in the Soviet Union. His rise to power marked the beginning of a new era in the Soviet Union.
GORBACHEV INITIATES REFORM  Gorbachev had inherited a host of problems in the Soviet Union. Many of them revolved around the stagnant Soviet economy. But in fact the entire Soviet system suffered from gross inefficiency and recession.

An imaginative, skilled diplomat and political leader, Gorbachev advocated a policy known as glasnost (Russian for “openness”). He allowed open criticism of the Soviet government and took some steps toward freedom of the press. In 1985, he outlined his plans for perestroika, a restructuring of Soviet society. He called for less government control of the economy, the introduction of some private enterprise, and steps toward establishing a democratic government in the Soviet Union. His plan of action reflected the failure of the Communist system.

Gorbachev recognized that better relations with the United States would allow the Soviets to reduce their military spending and reform their economy. As a result, he initiated a series of arms-control meetings that led to the INF Treaty (Intermediate-Range Nuclear Forces Treaty) signed on December 8, 1987. The United States Senate ratified the treaty five months later in May 1988. The treaty eliminated two classes of weapons systems in Europe and allowed each nation to make on-site inspections of the other’s military installations.

THE SOVIET UNION DECLINES  Gorbachev’s introduction of democratic ideals led to a dramatic increase in nationalism on the part of the Soviet Union’s non-Russian republics. The pressure for complete change was overwhelming. In December 1991, 14 non-Russian republics declared their independence from the Soviet Union. Muscled aside by Russian reformers who thought he was working too slowly toward democracy, Gorbachev himself lost power and resigned as Soviet president. After 74 years, the Soviet Union dissolved.

A loose federation known as the Commonwealth of Independent States (CIS) took the place of the Soviet Union. In February 1992, President George Bush and Russian president Boris Yeltsin issued a formal statement declaring an end to the Cold War that had plagued the two nations and divided the world since 1945. The statement marked the beginning of a new era of “friendship and partnership” between the two nations. In January 1993, Yeltsin and Bush signed the START II pact, designed to cut both nations’ nuclear arsenals by two-thirds.

THE COLLAPSE OF COMMUNIST REGIMES  Before his resignation, Gorbachev had encouraged the people of East Germany and Eastern Europe to go their own ways. In 1988, when the Soviet Union was still intact, he reduced the number of Soviet troops in Eastern Europe and allowed non-Communist parties to organize in satellite nations, such as East Germany and Poland. He encouraged the satellite nations to move toward democracy. The impoverished Soviet Union would no longer support unpopular Communist regimes.

In October 1989, East Germans startled the world by repudiating their Communist government. On November 9, 1989, East Germany opened the Berlin Wall, allowing free passage between the two parts of the city for the first time in
28 years. East German border guards stood by and watched as Berliners pounded away with hammers and other tools at the despised wall. In early 1990, East Germany held its first free elections, and on October 3 of that year, the two German nations were united.

Other European nations also adopted democratic reforms. Czechoslovakia withdrew from the Soviet bloc. The Baltic states of Latvia, Estonia, and Lithuania declared their independence from the Soviet Union. Hungary, Bulgaria, and Romania made successful transitions from communism.

Yugoslavia, however, collapsed. Four of its six republics seceded. Ethnic rivalries deteriorated into a brutal war among Muslims, Orthodox Serbs, and Roman Catholic Croats, who were dividing Yugoslavia, each claiming parts of it. Serbia backed Serb minorities that were stirring up civil unrest in Croatia and Bosnia.

**COMMUNISM CONTINUES IN CHINA** Even before perestroika unfolded in the Soviet Union, economic reform had begun in China. Early in the 1980s, the Chinese Communist government loosened its grip on business and eliminated some price controls. Students in China began to demand freedom of speech and a greater voice in government.

In April 1989, university students in China held marches that quickly grew into large demonstrations in Beijing’s **Tiananmen** (tyän’än’mèn’⁠) **Square** and on the streets of other cities. In Tiananmen Square, Chinese students constructed a version of the Statue of Liberty to symbolize their struggle for democracy.

China’s premier, Li Peng, eventually ordered the military to crush the protesters. China’s armed forces stormed into Tiananmen Square, slaughtering unarmed students. The world’s democratic countries watched these events in horror on television. The collapse of the pro-democracy movement left the future in China uncertain. As one student leader said, “The government has won the battle here today. But they have lost the people’s hearts.”
Central American and Caribbean Policy

Cold War considerations during the Reagan and Bush administrations continued to influence affairs in Central America and the Caribbean. In these places, the United States still opposed left-leaning and socialist governments in favor of governments friendly to the United States.

NICARAGUA  The United States had had a presence in Nicaragua ever since 1912, when President Taft sent U.S. Marines to protect American investments there. The marines left in 1933, but only after helping the dictator Anastasio Somoza come to power.

The Somoza family ruled Nicaragua for 42 years. To keep control of its business empire, the family rigged elections and assassinated political rivals. Many people believed that only a revolution would end the Somoza dictatorship.

Between 1977 and 1979, Nicaragua was engulfed in a civil war between Somoza’s national guard and the Sandinistas, rebels who took their name from a rebel leader named Sandino who had been killed in 1934. When Sandinista rebels toppled the dictatorship of Somoza’s son in 1979, President Carter recognized the new regime and sent it $83 million in economic aid. The Soviet Union and Cuba sent aid as well.

In 1981, however, President Reagan charged that Nicaragua was a Soviet outpost that was “exporting revolution” to other Central American countries. Reagan cut all aid to the Sandinista government and threw his support to guerrilla forces known as the Contras because they were “against” the Sandinistas. By 1983, the Contra army had grown to nearly 10,000 men, and American officials from the CIA had stationed themselves to direct operations—without congressional approval. In response, Congress passed the Boland Amendment, banning military aid to Nicaragua until it cut ties with the Sandinistas.
aid to the Contras for two years. However, Reagan’s administration still found ways to negotiate aid to the Contras.

On February 25, 1990, Nicaraguan president Daniel Ortega held free elections, and Violeta de Chamorro, a Contra supporter, was elected the nation’s new president. Chamorro’s coalition was united only in opposition to the Sandinistas; it was too weak and divided to solve Nicaragua’s ongoing problems.

**GRENADA** On the tiny Caribbean island of Grenada, the United States used direct military force to accomplish its aims. After noting that the island was developing ties to Communist Cuba, President Reagan sent approximately 2,000 troops to the island in 1983. There they overthrew the pro-Cuban government, which was replaced by one friendlier to the United States. Eighteen American soldiers died in the attack, but Reagan declared that the invasion had been necessary to defend U.S. security.

**PANAMA** Six years later, in 1989, President Bush sent more than 20,000 soldiers and marines into Panama to overthrow and arrest General Manuel Antonio Noriega on charges of drug trafficking. Noriega had been receiving money since 1960 from the CIA, but he was also involved in the international drug trade. After he was indicted by a Miami grand jury, Noriega was taken by force by the American military and flown to Miami to stand trial. In April 1992, Noriega was convicted and sentenced to 40 years in prison. Many Latin American governments deplored the “Yankee imperialism” of the action. However, many Americans—and Panamanians—were pleased by the removal of a military dictator who supported drug smuggling.

**Middle East Trouble Spots**

Results favorable to U.S. interests were more difficult to obtain in the Middle East. Negotiating conflicts between ever-shifting governments drew the United States into scandal and its first major war since Vietnam.

**THE IRAN-CONTRA SCANDAL**

In 1983, terrorist groups loyal to Iran took a number of Americans hostage in Lebanon. Reagan denounced Iran and urged U.S. allies not to sell arms to Iran for its war against Iraq. In 1985, he declared that “America will never make concessions to terrorists.” Therefore, Americans were shocked to learn in 1986 that President Reagan had approved the sale of arms to Iran. In exchange for those sales, Iran promised to win the release of seven American hostages held in Lebanon by pro-Iranian terrorists. What’s more, members of Reagan’s staff sent part of the
profits from those illegal arms sales to the Contras in Nicaragua—in direct violation of the Boland Amendment. President Reagan held a press conference to explain what had happened.

**A PERSONAL VOICE**

**RONALD REAGAN**

“...I am deeply troubled that the implementation of a policy aimed at resolving a truly tragic situation in the Middle East has resulted in such controversy. As I’ve stated previously, I believe our policy goals toward Iran were well founded.”

—presidential press conference, November 25, 1986

In the summer of 1987, special committees of both houses of Congress conducted a dramatic inquiry into the Iran-Contra affair during a month of joint televised hearings. Among those testifying was Lieutenant Colonel Oliver North, a member of the National Security Council staff who played a key role in providing aid to the Contras. North appeared in military uniform adorned with medals. In defending his actions, North talked about patriotism and love of country. He asserted that he thought he was carrying out the president’s wishes and that the end of helping the Contras justified almost any means.

After a congressional investigation, Special Prosecutor Lawrence E. Walsh, early in 1988, indicted various members of the Reagan administration who were involved in the scandal. Oliver North was found guilty of taking part in the cover-up. He was sentenced to pay a stiff fine and perform community service. On Christmas Eve of 1992, President Bush pardoned a number of Reagan officials.

**THE PERSIAN GULF WAR**

Regardless of the scandal surrounding the Iran-Contra affair, conflict with Iraq (Iran’s long-standing enemy) and its leader, Saddam Hussein, soon eclipsed U.S. problems with Iran. During the 1980s, Iran and Iraq had fought a prolonged war, and Hussein found himself with enormous war debts to pay. Several times, Hussein had claimed that the oil-rich nation of Kuwait was part of Iraq. On August 2, 1990, Iraqi troops invaded a disputed area claimed by Kuwait. The Iraqi invaders looted Kuwait, then headed toward Saudi Arabia and...

its oil fields. If Iraq conquered Saudi Arabia as well as Kuwait, it would control one-half of the world’s known oil reserves, which would severely threaten U.S. oil supplies.

For several months, President Bush and Secretary of State James Baker organized an international coalition against Iraqi aggression. With the support of Congress and the UN, President Bush launched Operation Desert Storm to liberate Kuwait from Iraqi control. On January 16, 1991, the United States and its allies staged a massive air assault against Iraq. On February 23, they launched a successful ground offensive from Saudi Arabia. On February 28, 1991, President Bush announced a cease-fire. Operation Desert Storm was over. Kuwait was liberated.

Millions of Americans turned out for the victory parades that greeted returning soldiers. After the debacle in Vietnam, they were thrilled the war was over, with fewer than 400 casualties among UN coalition forces. (However, there were subsequent reports that Gulf veterans were suffering from disabilities caused by chemicals used in the war.) By contrast, Iraq had suffered an estimated 100,000 military and civilian deaths. During the embargo that followed, many Iraqi children died from outbreaks of cholera, typhoid, enteritis, and other diseases.

**BUSH’S DOMESTIC POLICIES** Despite his great achievement in the Persian Gulf War, President Bush was not as successful on the domestic front. He was hurt by rising deficits and a recession that began in 1990 and lasted through most of 1992. Bush was forced to raise taxes despite his campaign pledge. His approval rating had dropped to 49 percent by 1992. The weak economy and the tax hike doomed Bush’s reelection campaign, and 12 years of Republican leadership came to an end.
